## Performance Based Budgeting (PBB) in Rwanda

Performance Based Budgeting (PBB) has been introduced in Rwanda with the major objective of accelerating implementation of the National Strategy for Transformation (NST1). PBB intends to improve the efficiency and effectiveness of public expenditure by linking the funding of public sector organizations to the results they deliver and making resourceful use of performance information. This annex presents selected PBB examples for all 16 sectors, the Rwandan Performance Based Budgeting Approach and links the budget allocations to the National Strategy for Transformation (NST1). The duplication of some programs, program objectives, indicators and targets in some sectors is due to the fact that those programs are implemented by both Central Government Agencies and Decentralized Administrative Entities.
